

# UAD / IDC ARE HIRING

Please email your CV and Portfolio to [mg@zuadr.com](mailto:mg@zuadr.com)

## Company Background

**UAD** (Architectural Design and Research Institute of Zhejiang University) founded in 1953, with over 1500 employees. UAD has long been an outstanding LDI with its business scope covering almost every architecture typology.

**IDC** (International Design Center) is a young platform that UAD established recently, aiming on recruiting junior and intermediate architects with international backgrounds, to expand the scope of work to international projects, competitions, close collaboration with international companies/institutions on both domestic and oversea projects, and academic engagement.

The Z-CODE LAB team is committed to accurately introducing these quantifiable data into the design process through data-based thinking and the application of related tools, and finally weaving a dynamic interactive and interrelated beauty system. Based on such thinking method, form can not only follow function, but reflect the final result of information processing.

With the solid base of UAD, IDC has the intention and responsibility of ultimately pursuing a purer architecture ontology within the diversity of projects. Currently, IDC is led by Registered Architect of Switzerland (MSc. Arch. ETH SIA) and Class I Registered Architects of China.

## Architect with 2+ years' experience (1 Opening)

### Job (Role) Summary

We are looking for an architect to grow with us. The position offers the candidate the chance to work on small scale projects where IDC has more autonomy and potential for more research/academic focus, as well as larger projects where more coordination and problem solving among UAD internal engineers is required. Organizing academic programmes with European/American Universities and architecture practices is an important part of the work.

### Qualifications

- A minimum of a bachelor's degree in Architecture or related field or equivalent experience.
- 2+ years of professional working experience
- Fluent in written and spoken English (Mandarin or German proficiency will be a plus)
- Excellent design and communication skills, confident to communicate at all levels of the organization and in a culturally diverse environment.
- Manages time and workload to meet project task deadlines and commitments with periodic interaction and direction from project leaders while sharing knowledge with less experienced staff.

- Good freehand/hand sketch and rendering skills.
- Proficiency in the use of 2D/3D software, including AutoCAD, SketchUp, Rhino 3D, Photoshop, InDesign, Illustrator (BIM software skills like Revit will be a plus).

**Start date:** ASAP

**Location:** Zhejiang University, Xixi Campus (2km north of West Lake), Hangzhou, China

**Salary:**

**Application:** Applicant must submit their CV and Portfolio in digital format with attention to: [mg@zuadr.com](mailto:mg@zuadr.com) with subject: "Architect Required"

### **Parametric Design Research Assistant (1 Opening)**

#### **Job (Role) Summary**

We are looking for a parametric design research assistant to grow with us. The position offers the candidate the chance to work on parametric research/academic reports, as well as design projects cooperating with other teams within UAD.

#### **Qualifications**

- Bachelor degree in Architecture / Design / Computer Programming, etc.; experience in these fields is preferred;
- Familiar with at least one computer programming language, and master at least one algorithm-related software (Grasshopper, Processing, etc.);
- Proficiency in research with experience in writing related research reports, submissions for related projects, and crafting grant proposals;
- Serious and responsible work ethic with a strong logical capacity;
- Basic English communication skills.

**Start date:** ASAP

**Location:** Zhejiang University, Xixi Campus (2km north of West Lake), Hangzhou, China

**Salary:**

**Application:** Applicant must submit their CV and Portfolio in digital format with attention to: [mg@zuadr.com](mailto:mg@zuadr.com) with subject: "Parametric Design Research Assistant Required"

### **Media (Planning) Research Specialist (1 Opening)**

#### **Job (Role) Summary**

We are looking for a new media research specialist to grow with us. The position offers the candidate the chance to plan of domestic and foreign lectures, exhibitions, teaching, academic activities and other related events; and to organize and complete formatting, composition, and publication of project results and research. Organizing academic programmes with European/American Universities and architecture practices is an important part of the work.

#### **Qualifications**

- Architecture / Design / Art / Media and other related professional degrees; media-related work experience in China is preferred.
- Good aesthetic and graphic design abilities, used to organize and complete the formatting, composition, and publication of project results and research;

- Strong interest in media, design, and art, with excellent communication capabilities;
- Careful and serious working attitude, organized, with a strong sense of responsibility and confidence;
- Proficiency in Adobe Suite, Microsoft Office and other related software;
- Strong and logical use of English or German in both speaking and writing.

**Start date:** ASAP

**Location:** Zhejiang University, Xixi Campus (2km north of West Lake), Hangzhou, China

**Salary:**

**Application:** Applicant must submit their CV and Portfolio in digital format with attention to: [mg@zuadr.com](mailto:mg@zuadr.com) with subject: "Media Research Specialist Required"
